

# A Rose for Our love One

- On the Sunday of Family Week Councils are to select one hospital or a care facility in their community and distribute one single rose to all patients and staff.

**Faith  
in  
Action**

- Under the current conditions, this would be a nice way to say thank you to all frontline workers for their hard work.
- Include a little note on the rose with a message of hope and the name of your council. If possible, organize a mass in the hospital chapel for anyone to attend.
- Have the Brother Knights and their family distribute the rose or ask your parishioners to participate.
