

# Columbian Squires

As members of the Knights of Columbus we have a moral obligation to provide faith-based leadership opportunities to our youth. In 1925 the Knights decided to start the Squire program to allow young catholic men the opportunity to learn and live their faith.

Living our lives as Knight's we will:

- be positive catholic role models by showing examples of helping the less fortunate in our communities
- counter the questionable images and role models in today's world
- help equip young men to handle the pressures and temptations of adulthood
- provide positive male guidance and support to boys living in fatherless homes
- provide direction, guidance, affirmation and leadership opportunities
- be proud of and share our faith

Our good works as Knights show our Squires that they too can all achieve their personal goals while living their faith.

Please continue to pray for the success of the Squire program in Ontario.
